MATHEMATICS OF THE USSR – SBORNIK

МАТЕМАТИЧЕСКИЙ СБОРНИК

Tom 84 (126) Nos. 1–4, 1971

Volume 13, Nos. 1–4 January–April, 1971 Pages 1–646

INDEX OF AUTHORS

Agranovič, M. S. *Boundary value problems for systems with a parameter* 25

Ahiezer, D. N. *Cohomology of compact complex homogeneous spaces* 285

Alekseevskiĭ, D. V. *Conjugacy of polar factorizations of Lie groups* 12

Bazilevič, I. E. *Supplement to the article "On a univalence criterion for regular functions and the dispersion of their coefficients"* 626

Bel'skiĭ, A. A. *Rational intersection points of two hyperquadrics* 631

Beniaminov, E. M. *A universal property of Deheuvels homology* 65

Buhštaber, V. M. and Novikov, S. P. *Formal groups, power systems and Adams operators* 80

Bulanov, A. P. *Rational approximations to convex functions with given modulus of continuity* 473

Dekster, B. V. See Volkov, Ju. A

Denčev, R. *On commuting self adjoint extensions of differential operators* 360

Dynkin, E. B. *Excessive measures and entry laws for a Markov process* 209

Epifanov, O. V. See Korobeĭnik, Ju. F. and Epifanov, O. V.

Garkavi, A. L. *The Helly problem and best approximation of summable functions* 187

Gel'fer, S. A. See Važdaev, V. P. and Gel'fer, S. A.

Gohberg, I. C. and Sigal, E. I. *An operator generalization of the logarithmic residue theorem and the theorem of Rouché* 603

Golovin, V. D. *Duality in the theory of functions of several complex variables* 577

Grušin, V. V. *On a class of elliptic pseudodifferential operators degenerate on a submanifold* 155

Gudovič, I. S. and Kreĭn, S. G. *Some boundary value problems elliptic in a subspace* 589

Hadžiivanov, N. *Extension of mappings into spheres and countable decompositions of Tihonov cubes* 117

Kleĭner, G. B. *On Plücker properties of rings* 517

Korobeĭnik, Ju. F. and Epifanov, O. V. *Normal solvability of a class of differential equations of infinite order* 371

Kreĭn, S. G. See Gudovič, I. S. and Kreĭn, S. G.

Kudrjavceva, I. V. *On solutions of a parabolic equation that decrease with respect to the space variables* 1

Leont'eva, L. A. *On completeness of a system of functions that are close to power functions* 400

Leont′eva, T. A. *Representation of functions in the unit disk by series of rational fractions* 309

Ljance, V. È. *Completely regular perturbation of a continuous spectrum. II* 137

Loginov, A. I. *Complete commutative symmetric operator algebras in the Pontrjagin space* Π_1 569

Lozanovskiĭ, G. Ja. See **Vulih, B. Z. and Lozanovskiĭ, G. Ja.**

Malyšev, V. A. *Wiener-Hopf equations in a quadrant of the plane, discrete groups, and automorphic functions* 491

Novikov, S. P. See **Buhštaber, V. M. and Novikov, S. P.**

Plykin, R. V. *The topology of basis sets for Smale diffeomorphisms* 297

Polin, S. V. *Primitive m-near-rings over multioperator groups* 247

Šaĭn, B. M. *Representation of ordered projection semigroups* 552

Sigal, E. I. See **Gohberg, I. C. and Sigal, E. I.**

Šmul′jan, Ju. L. *Extended resolvents and extended spectral functions of a Hermitian operator* 435

Sonis, M. G. *On a class of operators in von Neumann algebras with Segal measure on the projectors* 344

Šubin, M. A. *On the index of families of Wiener-Hopf operators* 529

Tumarkin, G. C. *Boundary properties of analytic functions representable as integrals of Cauchy type* 419

Važdaev, V. P. and Gel′fer, S. A. *Some estimates in the class of analytic functions of bounded type* 267

Volkov, Ju. A and Dekster, B. V. *Erratum*

Vulih, B. Z. and Lozanovskiĭ, G. Ja. *On the representation of completely linear and regular functionals in partially ordered spaces* 323

Zabreĭko, P. P. *The Schaefer method in the theory of Hammerstein integral equations* 451
